

IDEA SUBMISSION FORM

Regional Revitalization Partnership

<https://tinyurl.com/rochesterRRP>

In a unique public-private partnership, local and state government agencies and private foundations are coming together to invest \$80 million in placemaking on the riverfront, commercial corridors, and workforce development in the City of Rochester. Any idea that contributes to placemaking on the riverfront, economic development in a commercial corridor, or workforce development can be submitted for consideration and review by an advisory committee of funding organizations. Ideas will receive priority if they:

- Maximize long-term economic growth, leverage other funding opportunities, and reduce long-standing inequities
- Foster commercial corridor development on West Main Street
- Have previously received public input
- Are in the planning stages and have a committed sponsor
- Have few or no other opportunities to advance without this funding
